Professional Summary

Principal engineer and architect building enterprise CI/CD, cloud infrastructure, and AI-driven tooling at scale. 9+ years across energy sector giants (PG&E, Chevron). Patent holder in lower-carbon architecture. Ship fast, think in systems, mentor the next bench.

Professional Experience

Principal Solutions Engineer, PG&E | Sacramento, CA | 2025-Present

- Designing and implementing the enterprise CI/CD pipeline using ADO.
- Developed an AI-driven solution to convert legacy CloudFormation projects to Terraform.
- Engineered an interactive data visualization platform by integrating enterprise systems (e.g., SAP), streamlining internal reporting workflows and reducing analysis time by over 90%.

Principal Architect, Chevron Corp | San Ramon, CA | 2020-2025

- Led a global engineering team to develop and implement Generative AI solutions, improving user productivity by 30%.
- Spearheaded digital transformation initiatives, positioning Chevron as a leader in clean energy technology.
- Designed and executed technical roadmaps for mobile applications, increasing global adoption by 40%.
- Developed cloud-based solutions supporting Chevron's Lower Carbon Business initiatives.

Senior Software Engineer, Chevron Corp | San Ramon, CA | 2017-2020

- Led cloud migration strategies, successfully transitioning mission-critical applications to Azure.
- Designed and implemented enterprise-wide CI/CD pipelines, boosting deployment efficiency by 50%.
- Provided architectural leadership in re-engineering core platforms, enhancing system performance and scalability.

Full-Stack/Mobile Software Engineer, CloudVirga | Irvine, CA | 2017

- Developed native iOS and Android applications using NativeScript, increasing user engagement and app stability.
- Utilized TypeScript and Angular to build scalable front-end solutions, cutting development time by 20%.

Notable Accomplishments

- Awarded multiple patents for architectural designs in Lower Carbon solutions.
- Earned a User Design Certificate from the California Institute of the Arts.
- Completed multiple certifications from HarvardX.
- Self-published novelist.

Technical Skills

- **Languages:** TypeScript (JavaScript), C#, Dart, Python
- **Frameworks & Technologies:** Angular, React, Node.js, .NET Core, Terraform
- **Cloud Platforms:** Azure, AWS
- **DevOps & CI/CD Tools:** Azure DevOps (ADO), GitHub Actions (GHA)
- **Mobile Development:** iOS/Android (Native), NativeScript, Flutter
- **Databases:** Microsoft Azure SQL, Cosmos DB, PostgreSQL, DynamoDB

Military Service

Security Forces, United States Air Force

Community Involvement

- Watch D.O.G.S. (Dads Of Great Students) volunteer at Antelope Hills Elementary, mentoring and inspiring young students.
